**Forgotten Heroes 14-19 Foundation's Educational Excursions Programme**

Dear Luc,

I was very impressed to learn of the continuing work of the Forgotten Heroes 14-19 Foundation in promoting the valiant contribution of Muslim soldiers serving alongside the Allied Forces during the Great War.

The involvement of these courageous Muslims in the war which took place miles away from their homes and families should give us all the more reason to honour their selfless service and loyalty.

To that end, I commend, and wholeheartedly support, the Forgotten Heroes 14-19 Foundation's educational excursions programme to cemeteries in France, as I believe it is important to commemorate the shared endeavours and sacrifice of the many people, cultures and nations who came to the aid of Europe at her time of need.

Yours sincerely,

Asim Hafiz
